PART 1 INTRODUCTION

1. Background

The FARMFEST is a major annual carnival event jointly organized by the FARMFEST Organizing Committee, AFCD, VMO and FMO to promote local agricultural and fishery industry and their quality products. The upcoming FARMFEST will last for three days.

2. Details of the upcoming FARMFEST 2023:

Date : 25 -27 December 2022 (Sun, Mon & Tue)

Venue : Fa Hui Park, Mongkok

Proposal for FARMFEST 2023 : As provided in Schedule 1

3. Past Experiences

FARMFEST is the largest outdoor farmers' market in Hong Kong. Due to Covid-19 and avoidance of social contact, FARMFEST 2022 physical event was cancelled and switched to online. The on-line event was held as a 16 days long event from 11 Jan to 26 Jan 2022. About HK\$1 million was spent in offering a virtual event platform, an online sale webpage, logistic services for door-to-door delivery of freshly harvested, perishable local vegetables and fruits as well as chilled / frozen fish products and other food commodities. Previously, FARMFEST 2021 was also held on-line as a-month-long event from 8 Jan to 7 Feb 2021.

The latest FARMFEST physical event was FARMFEST 2020, which was held at Fa Hui Park from 3 to 5 January 2020, attracting more than 140,000 visitors. There were 403 booths participated in the 3-day carnival, selling a wide variety of local agricultural and fisheries products and other related goods. Among all, over 220 booths sold premium local products such as fresh organic fruits, vegetables, mushrooms, hydroponics vegetables, live/chilled fish, frozen fisheries products, dried fisheries products, salted fish, cut flowers and ornamental plants. There were also over 164 booths selling local delicacies, organic and health food, sauces/seasonings, cookware and natural household products. Agricultural and fisheries exhibitions, educational displays, various fringe activities such as cultural and entertainment performances, gourmet events, health talks, cooking competitions and demonstration were held in the 3-day event. About HK\$6.4 million was spent in organizing the event while some HK\$ 2.8 million of income including booth rental and sponsorship received. For further details of the event, please visit the official FARMFEST website (www.farmfest.hk).

There are many aspects of services and inputs that were instrumental to the success of the past physical and on-line events. Some examples are listed below for reference:

- Effective media and publicity plan covering traditional and electronic media (TV, radio programmes and social media platforms) to publicize the event date to our older habitual customers and to expand our clientele base to younger families attracting their visits and patronage of local agricultural and fisheries products;
- Highly attractive venue design, event arrangement and excellent provision of necessary facilities such as clean and tidy toilets, first aid and voluntary services, effective cleanser support, green and recycling arrangement;
- Attractive exhibition / display zones and in particular of live crops and fishes provided by AFCD;
- Good logistical support and crowd control;
- Varieties of stage performances and entertainment;
- Use of social media and associated campaigns to promote the FARMFEST in advance as well as promotional programme before and during the event; and
- Generous commercial sponsorship support so secured.

4. Measures under COVID-19

COVID19 has made an alarming situation for FARMFEST 2023. Emergence of local infected cases of unknown origin may occur within a very short period. The government would immediately tighten up social distancing measures. Large-scale events would either be postponed or cancelled. This has become a new norm and would not be exceptional for FARMFEST 2023. In view of the epidemic, the event contractor should demonstrate and execute a flexible and effective approach, accept and be well prepared for contingency including but not limited to the sudden tightening on social distancing measures or cancellation of on-site FARMFEST 2023, give sufficient information to sponsors and booth operators before they enter into agreement for operating booths on the reduced scale of the event and arrangement in case of sudden cancellation of event, solutions to pacify sponsors and booth operators, refund of the sponsorship, booth rent and deposits, solutions to provide participating agricultural and fisheries industry for promotion of their products, logistics for collecting their fresh products, on-line sale and ordering, delivery to customers, aftersales services as well as detailed planning to reduce the event expenditure. In addition, the contractor should implement full anti-epidemic measures as required by Department of Health, including the “Vaccine Pass” requirement, together with other concerned departments to ensure the safety and health of booth operators, exhibitors, visitors and event staff and minimise the risk of spreading COVID-19. The requirements are specified in the Special Conditions of Contract and the Service Specification.
